

Howard County's 20-Minute Clean Up

On May 13th, 2010, Howard County Executive Ken Ulman is asking businesses, schools, government offices, organizations, and individuals to all get outside for 20 minutes to clean up the areas where we live, learn and work. Together, we'll keep trash out of the environment and keep Howard County clean and green.

Everyone in Howard County is invited to join in. Come outside and do a 20-minute clean up of any litter you find around your office, store, school or neighborhood. Form a group with colleagues, friends, or fellow students and see the difference 20 minutes makes!

How To Participate

Get a group together, safely pick up litter around an area of your choice, and dispose of trash using your regular business or residential pick-up. Recycle everything you can!

When you're done, send an email to 20minutecleanup@howardcountymd.gov letting us know how many people participated and how many bags of trash were collected. We'll thank your group on this website.

That's it! If we all work together we can all make a real difference.

To spread the word about the project, you can:

- Download and print an 8 ½ x 11 promotional flyer below and put it up where people will see it.
- Download and print the sign-up sheet below and add your organization's info to help form your group. Post it in a common area.
- Send an email within your organization letting them know about the idea, and the details for your site's clean-up.
- Email your friends and family about the 20-Minute Clean Up.

Have questions about the 20-minute Clean Up? Contact Elissa at 20minutecleanup@howardcountymd.gov or 410-313-1175.

Live Green Howard County's

Join in on Thursday, May 13 For a County-Wide Spring Cleaning

Get outside for 20 minutes and do a quick clean up of litter around your business, school or neighborhood.

It's simple!

Together, we can make a real difference.

Please contact Howard County's Department of Environmental Sustainability at 20minutecleanup@howardcountymd.gov to let us know if you participated and how many bags of trash you collected. We'll thank your group on our website!

Check our website livegreenhoward.com for more details.
